

Stefania Milan (stefaniamilan.net) explores the interplay between digital technologies and society, with a focus on technology activism and cyberspace governance. She holds a PhD in political and social sciences of the European University Institute, Italy, and is Assistant Professor of New Media and Digital Culture at the Media Studies Department of the University of Amsterdam. Prior to joining UvA, she worked at the University of Toronto, Tilburg University, Central European University, University of Lucerne, and the European University Institute. Stefania is the author of *Social Movements and Their Technologies: Wiring Social Change* (Palgrave Macmillan, 2013), and co-author of *Media/Society* (Sage, 2011), and has published extensively in international journals. In 2014, she was awarded a Starting Grant of the European Research Council for her project 'Data activism: The politics of big data according to civil society'. Stefania is also the founding director of the Data J Lab, dedicated to big data analytics, and a research associate at the Tilburg Institute for Law, Technology and Society, and at the Internet Policy Observatory of the Annenberg School for Communications, University of Pennsylvania. She is active in the field of internet governance, serving in the NonCommercial User Constituency of the Internet Corporation for Assigned Names and Numbers (ICANN).
